

Staines not to visit remote villages without informing them, he said.

Staines also worked in the districts of Mayurbhanj and Keonjhar.

An inquiry into Staines' murder blamed a lone religious fanatic wanted by police. It exonerated a Hindu group considered close to Vajpayee's ruling Hindu nationalist Bharatiya Janata Party to which fingers of suspicion were initially pointed.

Hindu activists accuse Christian missionaries of using coercion or economic incentives to force religious conversions in remote tribal areas of India. Christian missionaries deny the charge.

Meanwhile, the Election Commission Sept. 5 rejected the Orissa government's proposal to shift general of police Dilip Mohapatra in the wake of his reported controversial remarks on the killing of the priest.

Chief Election Commissioner M.S. Gill told PTI: "We are in the midst of elections which will end by October 10. Therefore, the commission desires that Mohapatra, who is a key functionary, be not be shifted till October 10."

Gill made it clear that the Orissa chief secretary, home secretary and the DGP should under no circumstances be disturbed in any manner till the conclusion of the poll process.

The state government had sought the commission's permission to transfer and revert Mohapatra to the rank of additional DGP for his reported remarks linking Catholic priest Aruldoss's killing to "forced conversions."

Chief Minister Giridhar Gamang faced an angry outburst from church leaders Sept. 4, who demanded immediate suspension of home secretary Ajit Kumar Tripathy as well over his reported statement that Catholic priests were trying to split families through conversions.

Gamang had gone to attend the funeral of the slain priest at Balasore.

#### HONORING EDWIN L. BEHRENS ON HIS CAREER WITH PROCTER & GAMBLE COMPANY

#### HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 21, 1999*

Mr. PORTMAN. Mr. Speaker, I rise today to honor Edwin L. Behrens, Director of National Government Relations with the Procter & Gamble Company, who is retiring after 38 years with the company.

Ed began his career with Procter & Gamble in 1961 in Cincinnati, Ohio, after receiving both his Bachelor's and Master's degrees in chemical engineering from the University of Wisconsin in Madison. Ed also holds an M.B.A. from Xavier University in Cincinnati. Ed held positions in technical brand management, consumer research; and state and federal government relations. In 1967, Ed was awarded a patent for detergent formulations.

In 1976, Ed transferred to Procter & Gamble's Washington, DC office to represent the company at the federal level. He was appointed Director of National Government Relations in 1992. Ed actively advanced federal "risk assessment" regulatory reform policy. In 1979, Ed was instrumental in initiating a pioneering study by the National Academy of Sciences, Risk Assessment in the Federal

Government: Managing the Process. This year, Ed participated in the Academy's reorganization and a second seminal study, Science, Technology and the Law.

Currently, Ed is responsible for Procter & Gamble's federal policy on advertising, energy, the environment, labor, research and development and telecommunications. His principal focus has been on Internet privacy policy. He serves as Chairman of the BBB Online Steering Committee, overseeing the development of self-regulatory privacy approach for American industry.

Ed and his wife, Wanda, live in Great Falls, Virginia, and have two sons. Both Ed and Wanda are committed to their community. Ed chairs the University of Wisconsin Foundation in the Washington, DC area. Wanda is a leader in the Susan G. Komen Breast Cancer Foundation's annual "Race for the Cure."

Mr. Speaker, we salute Ed Behrens as he completes 38 years of service to the Procter & Gamble Company.

#### WOMEN AND CHILDREN'S RESOURCES ACT

#### HON. JOSEPH R. PITTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 21, 1999*

Mr. PITTS. Mr. Speaker, I am pleased today to introduce a bill that is about solutions. About solutions for women in need. It's called the Women and Children's Resources Act and it is truly seeking to improve women's health and offer a woman compassionate choices when she finds herself facing an unplanned pregnancy.

This is legislation that can frankly bring pro-life and pro-choice together to offer real solutions to women—on common ground. If today's women need choices we must offer them real choices. We must offer them compassion. To truly respect women and to respect the value and uniqueness of all human life—both mother and child—we need to meet their needs in a holistic way. This is the essence of caring for women.

We all rejoice when we hear that the abortion rate is dropping in America. We rejoice because we know that it is due in part to the compassionate services and alternatives that are being offered to today's women.

Indeed, as Frederica Mathewes-Green has said so well, many women would choose not to have an abortion if only they knew that other options were available to them.

Alternatives like adoption services, maternity home stays, crisis pregnancy centers, caring extended church families and religious communities, even para-church organizations.

I'm pleased to have representatives from some of these organizations here today. It is each of you who provide the time-intensive, long-term, compassionate assistance to women—women who may be scared, poor, lonely, even confused. Thank you.

The Women and Children's Resources Act takes a successful model—the Pennsylvania model—and expands it for all 50 states. In Pennsylvania, because of a fee-for-service funding stream that goes directly to crisis

pregnancy centers, maternity homes, and adoption services, small organizations that meet these needs are helping hundreds more women than they would have been able to otherwise.

At the federal level, the 85 million dollar grant that would be set up through the Women and Children's Resources Act will provide a helping hand to such organizations all over the United States—organizations meeting essential needs of women, through: Testing for pregnancy; follow-up services; prenatal and postpartum health care; health and nutritional needs of pregnant and postpartum women; and essential information on childbirth, parenting, and pregnancy during adolescence.

For thousands of women, unfortunately, unplanned pregnancy is a reality. We are here today because we care about women in these situations.

Even as funding for Title X continues to grow, small organizations like crisis pregnancy centers, maternity homes, and adoption agencies rely almost solely on contributions from concerned citizens just to keep their shoe-string budgets afloat.

Mother Teresa showed us that the most important thing we can do is to meet the needs of those in our midst, those on our street corner, those in our cities and towns, those who come to us for help.

The Women and Children's Resources Act empowers those who are making a tangible difference in the lives of women facing an unplanned pregnancy. This is a critical part of offering choices. And this is the very essence of compassion. And this is something on which pro-choice and pro-life people can agree: that women facing crisis pregnancies need compassionate assistance.

#### MODEL TEACHER: CHARLOTTE RAY

#### HON. ERNIE FLETCHER

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 21, 1999*

Mr. FLETCHER. Mr. Speaker, as a member of the Committee on Education and the Workforce, I have heard hours of testimony on the failure of our nation's public education system. Far too often, we fail to recognize the success stories, and the thousands of men and women that dedicate their lives to the education of our children. Next to parents, I believe the most important factor in whether or not a child succeeds academically is the quality of the teacher in the classroom. With that in mind, today I rise in recognition of a model teacher from Lexington, Kentucky—the kind of teacher that every child in Kentucky, and across the nation, deserves to have standing in front of the chalkboard.

Fayette County Public Schools recently honored Charlotte Ray as high school teacher of the year. During her twenty-seven years as a ninth grade chemistry and physics teacher, she has touched the lives of hundreds of children by showing them that there is much more to science than what can be found in a textbook. With an energy level that rivals her students, Mrs. Ray uses the entire school as her
